

BUSINESS EMAIL & SECURITY

Reliable Emails

Enterprise-Level Email Security & Reliability

Our QSG Microsoft 365 experience, gives you access to business-class email from anywhere in the world. Get your work done efficiently with a clear, unified view of your email, calendar and contacts on any device.

“QSG has always been very attentive to my needs and any problems that have arisen. They have gone above and beyond my expectations and I highly recommend QSG!”

Hassle-free & Dependable

Through QSG’s Microsoft 365 experience you’ll get access to a simplified admin center. Here you can set up new user emails, restore accounts, create custom scripts, add email signatures, and more.

Real-time Sync

With real-time sync, your emails, contacts, and calendars update across your devices automatically. No matter where you go or what device you use, you are always up-to-date.

Customize your Emails

Use your own domain name, signatures, images, and formats to deliver emails unique to your brand. Message sizes can be as big as 150 MB to conveniently send larger attachments.

Email Security & Spam Filtering

We understand the hesitation with the high cost of building and managing a redundant messaging infrastructure. Fortunately, with QSG email security solutions we’ve got you covered. We have invested heavily into our secure and reliable email infrastructure solution – so you only pay a low monthly rate with peace-of-mind protection. Features include: URL guard, email encryption, business continuity and more!
